Website: www.base2stay.com Email: book@base2stay.com

base2stay has created an exciting new approach to urban accommodation blending aspects of boutique hotels with serviced apartments to provide a synthesis of what guests really need and use. By concentrating on stylish, comfortable and fully air-conditioned rooms that feature state-of-the-art communications and mini kitchens, and editing out many of the unnecessary extras available at traditional hotels, base2stay is able to offer excellent standards of accommodation from just £80 per room including VAT (£89 from April 2007).
